

Are you getting enough (2)?

Making the transition from supervisee to supervisor

Supervision is integral to delivering a quality healthcare service. This practical, reflective, one-day course is relevant for healthcare professionals from any clinical area who want to make or have made the transition from supervisee to supervisor. The course aims to consider the opportunities and challenges of becoming a supervisor; a supervisor's key qualities and skills; different supervisory styles; contracting, setting up and reviewing the supervisory relationship; in addition to on-going support and skill development in this new role. Previous attendance to 'Are you getting enough (1)?' is required. Group number is limited to 15, so early booking is recommended
